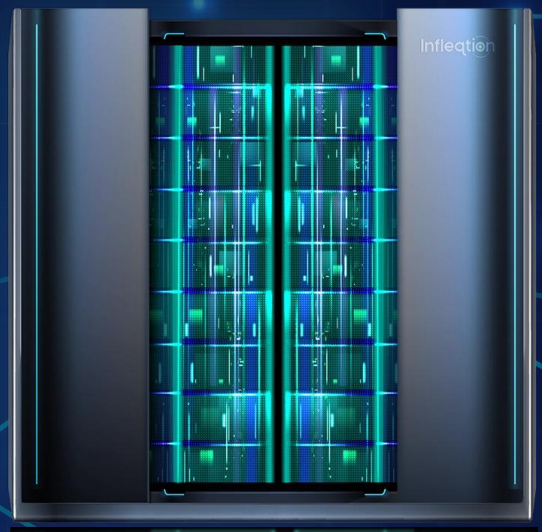
Quantum Technology

Infleqtion

The Future of
High-Performance Computing



Scalable, stable, & high-fidelity systems

Complement and extend AI & GPUs

Infleqtion is Leading the Industry

Record setting physical qubits: **1,600** atom array

12 logical qubits today with scalable error correction

99.73% user-facing 2Q gate fidelity

Real-world applications with **NVIDIA CUDA-Q™ & CUDA-Q Logical**

Deep Integration with NVIDIA Technologies
